

## Job position: Project Manager

Total Eren is looking for a Project Manager to support the construction of a wind project in Ukraine, through our specific project company.

Total Eren is a fast-growing renewable energy Independent Power Producer (IPP) engaged in solar and wind power project development and investment globally, with a particular focus on emerging markets.

### Key Responsibilities

The position is based in Ukraine (based on site near Odessa). The construction will be performed by multiple Contractors (turbine supply and installation contractor, civil works contractor, electrical works contractor and supply of electrical equipment).

The Project Manager will:

- Oversee all aspects of the design and construction process, working closely with the Owner's Engineers in order to ensure the quality standards and compliance with the project contracts.
- Drive effectively the communication between the Owner's Engineers and the Contractors through regular meetings.
- Manage the project interfaces between the different Contractors ensuring the project completion on time.
- Support the Project Director on the approval of invoices from the Contractors.
- Provide support to the Project Director regarding lender's requirements and local specific requirements.
- Communicate effectively with Lenders Technical Advisors about the progress of the project.
- Communicate regularly and prepare reports to the shareholders Technical Team about the project progress.
- Support the Contract Manager on the content of the official communications with the Contractors.

### Skills/Qualifications

Total Eren is looking for a candidate with the following qualifications:

- Able to be based in Ukraine.
- Must have an Engineering Degree.
- Minimum of 5 years of proven experience related to project management and construction of wind projects.
- Leadership and positive attitude.
- Pay attention to detail and have an accurate and rigid approach to the tasks.
- Fluent in English and able to communicate in Ukrainian or Russian.
- Ability to deliver in a fast-paced environment with tight deadlines and multiple demands.
